

Toilet Block Addition Project: Weekly Update:

Week Ending 15th November 2019

On The Home Stretch...!

What has happened this week..??

Works have progressed well over the last week with all the finishing trades starting to fit off and finalise works.

Externally the lovely red brickwork has been cleaned and the cement sheet weatherboards have been prepped and painted. The Tasmanian Oak Entry Ceiling has come together well and looks fantastic! Some additional tidy up works have been completed above the southern decking area as well.

Cleaned Red Bricks

Painted External Weatherboards

Internally painting works have begun, doors have been fitted and cabinetry to office has been installed. The guys at **Daco Kitchens** have done a great job with the benchtops to both the Male and Female toilets.

Tony From **Keil Tiling** have installed the fantastic looking floor and wall tiles that were supplied by Shane from **National Tiles And Carpet Call Bendigo**.

All our trades are doing a fantastic job keeping to the tight timelines and working in well together and we are excited to present the finished result shortly.

What is happening next week..??

With a big push from all our trades we are expecting the toilet block to be fully operational and ready for hand over. Stay tuned for the final update early next week!
